NOTE - There are several error messages that could appear in the error log:

- “No data exists for this student in the LMS”—there is no grade in Canvas to import or the student is on the PeopleSoft roster, but not on the Canvas roster. To correct the roster, add the missing grade manually in PeopleSoft.
 - “Unable to import grade”—the student already has an official final grade in PeopleSoft that was posted. No further action is needed.
 - “The grade submitted is not a valid grade for the student”—the grade entered in Canvas is not a valid grade for the grading basis the student selected in PeopleSoft.
 - “Student does not exist on roster”—the student is not on the PeopleSoft roster. Please contact the Office of the University Registrar to troubleshoot why there may be a discrepancy between Canvas and PeopleSoft.
- 4) Once all errors are resolved, set your grade roster to the appropriate “Approval Status” and click save.
