Learning Initiatives and Services.

**Assessment of Teaching**
Support for academic units and individual instructors who want to improve their overall effectiveness of teaching.

**Canvas @Pitt**
We offer support for the Canvas LMS via one-on-one consultations and on-demand support.

**Centers for Mentoring and Communication**
These centers facilitate mentoring opportunities and support for faculty to deliver scholarly work to students and the University community.

**Center for Diversity in the Curriculum**
We help faculty build inclusive learning environments that meet the needs of all students regardless of their identity, background, and ability.

**Faculty Seminars**
Deep dive into your curriculum and enrich your teaching practice by focusing on one of four teaching areas.

**Online Courses and Programs**
We develop fully-online graduate and certificate programs, as well as massive online open courses and continuing education classes.

**Open Lab**
Progressive and engaging learning experiences through innovative technologies.

**Resources for Teaching Hub**
Find teaching and pedagogical resources on topics like assessment, student engagement, virtual learning, and much more.

**Support for Large Enrollment Courses**
Through assessment strategies, technology, and support from faculty communities, we help instructors reimagine how to design and deliver large enrollment courses.

**Teaching Partners**
A community that engages faculty who use the Teaching Center’s resources to support and enhance their teaching practice.

The University Center for Teaching and Learning is the hub for teaching innovation at Pitt.
“The support that the University Center for Teaching and Learning has given us has been absolutely superb. It has allowed us to produce something so much more professional than we were expecting when we came into this.”

—Jeff Aziz
Senior Lecturer and Advisor, Department of English
(On creating podcasts in the Media Creation Lab)

“The Teaching Center has been absolutely phenomenal. Setting up the light board, advising me on what makes a good video—all of that is why the videos have come out so well.”

—Samuel Dickerson
Director and Assistant Professor, Swanson Engineering
(On using the Light Board to create educational videos)

“I had started working with the Teaching Center as an early adopter of Canvas, so I was excited about working with Canvas in the spring term. It absolutely lived up to that billing. It was a seamless transition for my students, as well as a much better mobile experience, which was something that was important to me in terms of developing the course.”

—Tom Davis
Clinical Assistant Professor of Business Administration, Joseph M. Katz Graduate School of Business

“I was able to get the support I needed to develop a project for my class over a single semester. The Teaching Center provided me with support at every stage of the process, helping to research the technology, to secure equipment, and to provide teaching guides and demonstrations to my class.”

—Erin Anderson, Assistant Professor
Assistant professor, Department of English
(On combining pedagogy and technology for a new class project)
